INSPIRE Geoportal Webinar – Monitoring & Reporting 2019 results and lessons learned

During the webinar, organised by the JRC INSPIRE team, the results of M&R 2019 exercise will be presented and discussed with the MS MIG-T representatives, National MD catalogue administrators or M&R MS Representatives. The JRC INSPIRE team will also present lessons learned from the integration of two processes: EU Geoportal MS metadata harvesting & processing with the use of the Reference Validator for automated MS metadata validation. The results of the MS Monitoring 2019 Survey, distributed to participants beforehand, will also be presented and future plans will be discussed together.
